## GOOD FOR THE ENVIRONMENT – GOOD FOR YOU

**Your advantages with the  
uma RECYCLED PET PEN series**

Recycling writing implements in different colours and surfaces.

Special colouring possible.

MIX and MATCH option.

One recycling process has already been carried out.

Can be recycled.

Material is very durable and suitable for upcycling.

More positive CO<sub>2</sub> balance. Significantly lower energy consumption in production compared to bio-plastics.

ClimatePartner-certified production and finishing.

Certified by Global Recycled Standard.

European production.

A 0,5 liter bottle gives a ballpen housing.

Nominated and awarded several times.

## RECYCLED PET PEN PRO INK FLOW SYSTEM

### Sustainably combined with innovative writing technology – The uma ink flow system

Thanks to the innovative further development of the uma RECYCLED PET PEN PRO series, additional types of writing system and promotional options have been created for customers. Along with the classic ballpoint pen, other identical writing systems made from rPET material can be used with the same sustainability benefits.

This means you can now write sustainably with the **uma highlighter:**

### RECYCLED PET PEN PRO LIQEO

Text markers are an essential office item. Thus, the highlighters in 6 writing colours are suitable for office use and as an advertising and communication tool. These models can be optimally used in schools, at training fairs or employee recruitment.

**RECYCLED PET PEN PRO LIQEO**  
0-2255

Experience the enjoyment of sustainable writing with the **uma rollerball:**

### RECYCLED PET PEN PRO Rollerball

A rollerball for a particularly fine line. Available in 8 writing colours in the uma RECYCLED PET PEN PRO series. Signing contracts or for a simply exquisite writing experience result in additional promotional opportunities.

**RECYCLED PET PEN PRO R**  
0-2252 R

Get to the heart of future-oriented developments with the **uma fineliner:**

### RECYCLED PET PEN PRO Fineliner

Emphasise, highlight or technical drawing – the thin streak of a fineliner can be precisely presented in colour format. 12 standard colours are available in the uma RECYCLED PET PEN PRO series.

## RECYCLED PET PEN PRO SI

### Recycled<sup>2</sup> – the most sustainable combination in a writing instrument!

Recycled PET beverage bottles meet recycled aluminium beverage cans. The uma rPET PRO series is one of the most sustainable writing instrument developments in the promotional industry. A ClimatePartner-certified, European and Global Recycled Standard certified production built up the basics for long-lasting and sustainable writing. The new upcycling idea adds elegant metal applications to the previously pure recycled PET writing instrument series. A recycled aluminium 150ml beverage can is recycled into 10 valuable metal tips that meet a PET housing of a recycled 0.5l PET bottle. So with the uma RECYCLED PET PEN PRO SI you write the most sustainable combination for the environment – just: uma Recycled<sup>2</sup>.

made from ocean-bound plastic

### uma RECYCLED PET PEN PRO ocean

The several small steps together make the big difference. With the idea of producing upcycled writing instruments from recycled PET bottles, uma is already making history. With the new **uma RECYCLED PET PEN PRO ocean** we are taking another step towards climate protection and sustainability.

For the production of the **uma RECYCLED PET PEN PRO ocean** we use collected ocean-bound plastic. In cooperation with Plastic Bank we are able to reduce the plastic waste in the coastlines and oceans and improve general living conditions for humans and animals.

The complete production process is ClimatePartner-certified. This not only increases the sustainability level of the product, but also proves your communicated advertising message.

## 0-2250 ANTIBAC

### 0-2250 ANTIBAC

(● 8-0854)

**Mix n' Match:** From 2,000 pieces, you can choose any colour combination.

The rPET material, which is produced in Europe from recycled PET bottles, is suitable for a durable and sustainable advertisement. The RECYCLED PET PEN PRO antibacterial offers several sales arguments: recycled, environmentally friendly, ClimatePartner-certified, antibacterial and antiviral. Due to the special nature of the material (recycled PET material) production-related variations are possible.

0-2250 ANTIBAC: Retractable ballpoint pen made from recycled, antibacterial and antiviral recycled PET material with opaque glossy housing and clip. The ISO 22196 and ISO 21702 tested antimicrobial additive of silver ions gives the rPET material an antibacterial and antiviral effect that reduces the adhesion and settling of bacteria or pathogens on the surface of the writing instrument by 99.99%. The antimicrobial additive incorporated into the rPET material cannot be rubbed off or released and is effective over the entire life of the writing instrument. A permanent reduction of pathogens is given.

The rPET material, which is produced in Europe from recycled PET bottles, is suitable for a durable and sustainable advertisement. Thanks to the European and ClimatePartner-certified production, the uma RECYCLED PET PEN PRO F Touch makes an additional sustainable contribution to the protection of the environment. Due to the special nature of the material (recycled PET material) production-related variations are possible.

0-2250 F TO: Retractable ballpoint pen made from recycled PET material with opaque matt housing and silver clip, push-button with integrated touch screen control.

# RECYCLED PET PEN ALUMA

The extraction and processing of the rPET material from 100% recycled PET bottles, as well as the rAL material from 100% recycled aluminium beverage cans takes place in Europe. Both materials are suitable for a durable and sustainable advertisement. Thanks to the European and ClimatePartner-certified production, the uma RECYCLED PET PEN ALUMA makes an additional sustainable contribution to the protection of the environment.

Due to the special nature of the material (recycled PET material) production-related variations are possible.

The models are suitable for laser engraving in white.

Note embedded into the barrel.
